NETHOPE
COMMITTED TO IMPROVING THE HUMAN CONDITION

NLG Tech Task Force

NLG Tech Task Force connects experts in refugee response with the private sector expertise and resources to address the needs of displaced children and youth.

The Task Force is open to all global and local NGOs, private sector companies, academic institutions, entrepreneurs, and host governments. 50+ organizations joined since the launch.

NLG focuses on 3 pillars: Education, Youth & Adolescents, and Protection. And, 6 countries: Syria, Iraq, Jordan, Lebanon, Turkey, and Egypt.

NLG Tech Task Force Approach – Learn More

A different approach to building solutions for humanitarian challenges

Using design thinking and collective impact to create opportunities for conflict-affected youth.

- Start with the problem you want to solve
- Think big, work toward a collective impact
- Co-design solutions with humanitarian and private sectors, and conflict-affected youth
- Use lean startup methodology to act with urgency and efficiency
- Integrate technology as needed
- Measure, learn, share, and iterate with end-user feedback

Research Presented at NLG Tech Summit: EdTech for Learning in Emergencies and Displaced Settings

Authors: Luke Stannard and Michaelle Tauson

WORKING RESEARCH QUESTION: *How can the utilization of EdTech (at home or at school) for teaching and learning best facilitate the learning process of children in crisis-affected settings.*
