NLG WORKING GROUP: PARTNERSHIP

THE ADDED VALUE OF NO LOST GENERATION

Mobilises resources for sectors at risk of underfunding

Provides an overarching regional framework for key areas of the response

Provides a platform for joint advocacy on the priorities for children and youth

Amplifies the voices and perspectives of adolescents and youth

Links efforts in different sectors to achieve results on issues which cannot be addressed by one sector alone, such as child labour or child marriage
HOW IS REGIONAL LEVEL ACTIVITY LINKED TO COUNTRY LEVEL?

At the regional level there is 1) a working group; 2) a comms group (email only – they do not meet in person).

The regional level working group leads the initiative.

Within this group there are technical focal points for each pillar.

These technical focal points cascade NLG information to and collect NLG information from coordination mechanisms in NLG countries.

Coordination mechanisms connect with their members in country.

[The NLG Tech Task Force, led by NetHope, which operates virtually, linking the NLG working group with the global private sector community.]
