RIGHT TO PLAY
PROTECT. EDUCATE. EMPOWER.

NETHOPE

October, 2019
Children are one of the most vulnerable populations on the planet. For many, their futures are disrupted by conflict and violence.
Right To Play empowers children to rise above these challenges and find their way back to hope. We reach 2.3 million children each year in Africa, Asia and The
It all started with a boy and his long sleeve shirt.
We harness one of the most powerful forces in children’s lives through four kinds of **play** – sports, games, creative play and free play to **support** children to **heal** from war, poverty
Play SAVES Lives.

- Children stay in school and graduate
- They resist exploitation and overcome prejudice
- They learn how to prevent life-threatening diseases like HIV and malaria

Implementation - Lessons Learned

Turn-key Solutions
- Highly dependent on Vendor to assist in implementation
- Required third party vendor expertise to migrate to the cloud (Azure)
- Need for add-ons, extension packs, set-up templates
  e.g., Mission CRM, Sparkrock 365

Cutting Edge Technology
- Need to build in more time as an early adopter (D365 evolving journey)

Global Presence and Running Lean
- Challenges in the design and deployment
- Introspective look at internal resources and capacity (accounting black out period)
ERP Implementation – D365 Business Central

Future Benefits

Leverage one platform
- Unification of user experience
- Avoid mishmash of tech apps e.g. SalesForce, WhatsApp, WeChat, etc.

Integrate D365-Sales with D365-Business Central
- Take advantage of shared data
- Utilize Power BI for dashboards/reporting

One source of Truth
- Team collaboration

Strengthen Vendor Ecosystem
- Develop stronger out of the box solutions
